

FOR IMMEDIATE RELEASE

Healthix Achieves HITRUST CSF® Certification to Manage Risk, Improve Security Posture, and Meet Compliance Requirements

HITRUST CSF Certification validates Healthix is committed to meeting key regulations and protecting sensitive information.

New York, NY, August 11, 2021 – Healthix, the nation’s largest public Health Information Exchange (HIE), with records of over 17 million individuals, and a leading provider of HIE services, today announced that its systems, specifically InterSystems’ HealthShare, Health Insight, HBI Solutions’ Spotlight Analytics Platform and supporting infrastructure, has earned CSF Certified status for information security by HITRUST.

HITRUST CSF Certified status demonstrates that Healthix’ systems have met key regulatory requirements and industry-defined requirements and is appropriately managing risk. This achievement places Healthix in an elite group of organizations worldwide that have earned this certification. By including federal and state regulations, standards, and frameworks, and incorporating a risk-based approach, the HITRUST CSF helps organizations address these challenges through a comprehensive and flexible framework of prescriptive and scalable security controls.

“Organizations, like ours, are under more pressure than ever to meet complex compliance and privacy requirements that include technical and process elements such as NIST, ISO, and COBIT,” said [Enter Executive Name], [Enter Title] at [Enter Company]. “We are pleased to demonstrate to our customers the highest standards for protecting sensitive data and information by achieving HITRUST CSF Certification.”

Healthix CIO Todd Rogow adds, "Healthix understands the essential role security plays in the exchange of health information. As stewards of the data we receive from New York’s largest health care systems, as well as smaller ambulatory practices, health plans and regulated facilities such as state psychiatric centers, achieving HITRUST certification establishes Healthix as a trusted partner.”

“HITRUST knows that without a sufficient level of reliability, an assurance report doesn’t provide the requisite level of assurances as required to make important business decisions. That’s why we focus on producing the highest quality reports available,” said Vincent Bennekens, Vice President of Quality, HITRUST. “The achievement of a HITRUST CSF Certification provides reliable assurances that Healthix is taking information risk management and compliance seriously.”

About Healthix

Healthix is the largest public Health Information Exchange (HIE) in the nation, bringing together hundreds of healthcare organizations at thousands of locations across New York City and Long Island. Healthix provides secure access to clinical data of more than 17 million patients, for treatment, care coordination and quality improvement. Data available through Healthix includes a broad range of clinical information electronically delivered with each patient encounter, 24/7 in real-time. Healthix is a key contributor to the Statewide Health Information Network of New York (SHIN-NY).
