

## **Todd M. Rogow, MPA, CHCIO**

*President and CEO*

**Todd M. Rogow, MPA, CHCIO is the President and Chief Executive Officer of Healthix.**

Todd brings a wealth of knowledge, industry experience and innovation to the health information exchange space where he has worked in leadership positions over the past ten years. He joined Healthix in 2015 as the Senior Vice President and Chief Information Officer, providing the vision, strategy and day-to-day operational leadership for all technical aspects of the company.

During his tenure at Healthix, Todd has driven the organization's rapid growth and innovative change, fulfilling the critical role of building and leading Healthix's information technology function through the implementation of next generation application software and completing the technical systems merger of several HIE organizations that make up Healthix today. Healthix, one of the largest publicly funded HIEs in the nation, manages records of over 20 million individuals, with data coming from over 8,000 participating healthcare facilities across New York State.

Before joining Healthix, Todd served as the Chief Technology Officer at HealthInfoNet, Maine's State HIE. With 20+ years of professional experience, primarily in directing technical projects, he has provided business and consulting services to a range of Fortune 100 companies and many government agencies, including the Department of Defense. Todd has served as a subject matter expert in healthcare technology at conferences worldwide, and on national and international panels. He has also authored a number of publications, most recently as a contributor to *Health Information Exchange: Navigating and Managing a Network of Health Information Systems, 2<sup>nd</sup> Edition 2022*, edited by Brian E. Dixon, PhD, MPA.

Todd has a master's degree in Public Administration and a Bachelor of Arts degree from the University of Vermont. He holds several certifications, among them, Certified Healthcare Chief Information Officer (CHCIO) and Project Management Professional (PMP) and is a graduate of the Daniel Hanley Center for Health Leadership program.
